Notice of relating to the label “PSE” according to the part of revision for Electrical Appliances and Materials Safety Act.

Dear Valued customers,

This is to inform you that we will remove the label “PSE” from the nameplate and the instruction manual for our product “PFBR-150 series”.

Due to this action, appearance of the product will be changed and the content about PSE in the instruction manual will be deleted. As a side note, PSE label is necessary to show on the specific appliance in Japan, it does not affect the sales abroad.

1. Applicable Model

PFBR-150SW-MN

*Including custom-made products for above.

2. The reason for removed the PSE label

According to a part of the revision for Electrical Appliances and Materials Safety Act, the permissible limits of radio noise should be adopted the compliance of the international standard on behalf of the existing standard.

In accordance with PFBR-150 series which are complied with the existing standard, we turned out that it was difficult to respond the international standard which is adopted from this time.

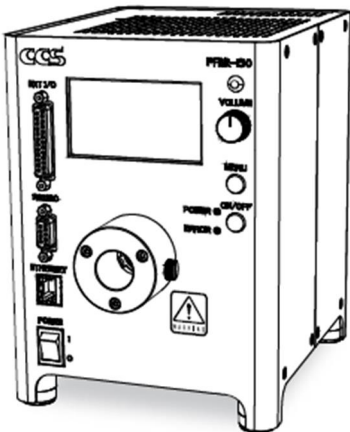

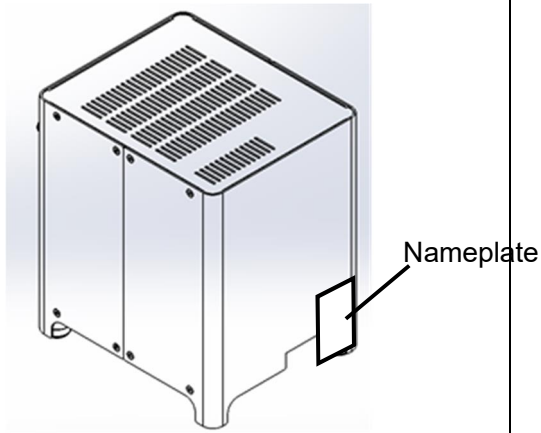

3. The change of the content

PSE label  will be removed from the nameplate and the instruction manual.

Please refer to the explanation in the next sheet.
